**Catarrrhal Deafness Cannot
Be Cured**
by local applications, as they cannot reach the
diseased portion of the ear. There is only
one way to cure catarrhal deafness, and that is
by a constitutional remedy. Catarrhal Deafness
is caused by an inflamed condition of the mu-
cous lining of the Eustachian Tube. When
this tube is inflamed you have a running
ear, or imperfect hearing, and when it is
entirely closed, Deafness is the result. Un-
less the inflammation can be reduced and the
tube restored to its normal condition, hearing
will be destroyed forever. Many cases of
deafness are caused by catarrh, which is an
inflamed condition of the mucous surfaces
of the mucous surfaces of the system.

KINDERGARTEN CLASS

Complaint is made by federal authorities that the purveyors of worthless stocks are reaping a rich harvest just now. The complaint is just. They are. They are likely to continue. There are many wage workers whose occupation calls for a very limited degree of skill, but who have succeeded by unimpaired in getting a fancy price for their labor a price somewhat disproportionate to the degree of dexterity needed in their calling. As a result, they have money in amounts which they can hardly contemplate with calmness.

Never before were there so many illiterates with money. People of rudimentary mentality, of positively weak intelligence, find themselves able to spend promiscuously. And to the bogus company sharks it seems almost too good to be true.

Here are credulous and confiding ones whom it is almost a pity to rob. It is a shame to take the money. Candy from a baby. A fool and his money. Most people are true for all generations. From which it will be seen that the temporary dissemination of money does not make for democracy. It is getting back into the hands of the few, the financiers. The possession of a little elementary education and fairly well developed intelligence is just as valuable to a working man as it ever was. The boys had better cultivate it; and they'll know how to keep their money when they've got it.

A sweet temper and a sunny disposition make any woman attractive. Facial blemishes and form defects are seldom noticed in one who radiates good cheer.

DAIRY COW NATURALLY CLEAN

Daily Baths Mean Sanitary Milk and More of It

Sightliness and attractiveness are feminine assets which extend even to the dairy cow. Naturally she is a clean and tidy beast. Unfortunately man has been obliged to confine the dairy cow closely in stables during certain periods of the year, with the consequences that unless he daily brushes and grooms the dairy matrons, their sleek, seemly coats soon lose their gloss and luster and become densely matted with dirt and litter. For the same reasons that it pays to groom horses greater efficiency from neat, spick-span coats—it also proves invaluable to "dollar up" the dairy cow daily by vigorous application of brush and curry comb. Cow comfort—that inexpressible condition of well-being which means animal satisfaction and the economical production of the maximum flow of milk—is fostered by careful and persistent grooming during the season when the cows need such extra attention, as ordinarily during the pasture period the animals of their own accord keep themselves clean.

The enthusiastic use of the brush and currycomb, supplemented by a moist cloth, as siege guns against dust and dirt, are good mediums for increased production, according to the opinions of progressive dairymen. They maintain that clean coats and luxurious feelings of contentment induce increased production of milk. If you doubt the profits from grooming dairy cows, put it up to Bossie and her stable mates via the referendum-vote method.

From sanitary standpoint, the densely-matted, filthy and caked coat of the dirty cow is one of the main sources of contamination in milk. Filth dries on the body of the animal, and unless it is removed previous to milking, a portion of it is likely to fall into the milk pail and carry undesirable bacteria with it. Hence, grooming cows is a fundamental safeguard against inferior, germ-laden milk. Where cows are groomed daily during their period of close confinement an attendant requires only about two or three minutes a cow to prepare and gloss up the animal as though for a banquet. On the other hand, it is difficult and time-consuming to clean off cows which have been kept without grooming in a dairy stable.

The commendable practice is to groom and clean the cow daily at such a time between the milking periods that there will be abundant opportunity for the dust put into circulation to settle so that it will not contaminate the milk as it is drawn from the cows. It is necessary for best results to wipe off the udder and flanks of each cow with moist clean cloth just before milking, in order to remove all the surface dust and dirt which has escaped the previous clean-up processes. It is recommended that dairymen employ special care to provide plenty of material so that at all times they may use clean cloths in preparing the cows for milking, as too commonly the wiping cloth, unless carefully handled, becomes a source of contamination. It is also advisable to clip off the long hairs from the udder and flanks of each cow, as ordinarily they provide ideal places for the accumulation of dirt and filth.

Extensive experiments conducted by the United States Department of Agriculture at the Government farm, Beltsville, Md., show that milk drawn into a sterile pail from dirty cows contained an average of 32,677 bacteria per cubic centimeter while milk drawn from clean cows whose udders and teats were washed immediately previous to milking contained only 4,947 germs per cubic centimeter. These tests were made immediately after milking. Naturally, on standing, the milk with the greatest number of bacteria would deteriorate most rapidly, due to the multiplication of the germs. Accordingly, its value as a human food product would be greatly reduced, while its introduction on the city market would be carefully scrutinized and, in some cases, punished by the health authorities.

Pride should cause every dairymen to maintain his cows in an attractive, cleanly, and sanitary condition every day in the year. In a way the appearance of the cow is an accurate measure of the owner. In the same degree that neglected fences overrun fence rows, tumble-down buildings, and unhusked machinery typify the shiftless, ne'er-do-well farmer, dairy cows which are dirty indicate the milk farmer who does not safeguard consumers against contaminated milk.

FOOD AND FRILLS

We are told that there are not enough people engaged in the copious production of essentials, and that this partly accounts for high prices.

We got around the difficulty during the war by forbidding the production of nonessentials. If this were done now it would throw a number of people out of work, but they would soon turn to the production of essentials, and supply the shortage.

Unfortunately, there are many of us who demand the nonessentials, and are thus responsible for the shortage of essentials. The richest man can consume only a small quantity of food, and wear only a few clothes. But he can soak a fortune in jewelry and automobiles, and it is the wages spent in producing commodities that creates the profiteer and sends prices up. It takes the labor of a lot of men to make one automobile. Cut out the luxuries to a reasonable extent. We must choose between jewels and Johnny-cake, between pearls and pie.

Pleasant Pond Grange Fair will be held Wednesday Oct. 3, or the first fair day thereafter. The exhibition will include fruit, vegetables, cooking and fancy work. Among the field sports will be horse pulling, tug-of-war, baseball and track events. Dinner and supper will be served and there will be dancing in the evening. The general committee is composed of Sydney F. Brown, Augustus G. Farrar and Mrs. Alvin Garay.

The "Autometric" Carburetor

Made by The Yale & Towne Mfg. Co.
STAMFORD CONNECTICUT

A Carburetor that makes good its promise of economy

AIR is cheap. The more of it you use in operating your automobile, the greater will be your economy in running expense.

The Autometric Carburetor will give you:

- 4 to 20% more mileage from your gasoline at low speed.
- 10 to 30% more mileage from your gasoline at low intermediate speed. (The speed you drive 95% of the time.)
- 10 to 20% more mileage from your gasoline at high speed.
- 10 to 25% more mileage from your gasoline at maximum.

Because it automatically feeds the correct mixture of gasoline and air for all speeds for any car.

The usual carburetor is subject to correct adjustment at but one speed. This is set for best results at intermediate or touring speeds. The result is either too lean or too rich a mixture at low and high speeds.

As the Autometric Carburetor provides the correct mixture for all speeds, no more fuel is burned than is actually necessary at whatever speed you are traveling.

That's one of the reasons why the Autometric Carburetor is a product worthy of bearing the trade-mark "Yale."

Step in and we'll arrange to have your own garage man put an Autometric on your car on approval. Then you can prove its economies over any other carburetor.

HARKEN BACK ON THE PAST

Twenty-four Years Ago This Week Sunday was the hottest day of the season. Col. Whitmarsh says it is the first time within his knowledge that the mercury has reached 101 degrees at the Elms house. Mason town reports 100 in the shade on the same date.

H. Denison Cole a popular Norway boy has gone to Davis, West Virginia, where he will engage in jewelry and optical business.

Work on the county buildings is delayed on account of the terra cotta trimmings that have not arrived.

The village schools opened, Monday. High school attendance is 60 with 22 in the freshman class. Four courses are offered a business course of 2 years and three courses of four years each. English literary and scientific college preparatory. Arthur G. Wiley, A. B. principal, Elinor F. Hunt, A. B. and Annie F. Richardson, A. B., assistants. Prof. Wiley is a graduate of Bowdoin and both assistants from Colby.

Forest fires near Bethel village are causing damage in Col. Edwards' timber land and over the meadow land owned by Eben S. Kilborn near mill brook.

The second sail boat regatta was held on Lake Umbagog this week. The following boats started, "Sprite" entered by W. M. Harley; "Midget" by Horace Cole; "Trouble" by L. E. Swett; "Helen May" by Geo. W. Holmes and "Trunie" by Arthur H. Bodkin. Sprite won in 1 hour and 16 minutes.

Charles Bisbee, who lives at "Bisbee town," Waterford, celebrated his 80th birthday, Sunday. A dinner was served to several guests by his son, Oscar M. Bisbee in honor of the occasion.

The protracted hot, dry weather is causing wells and springs to go dry. In East Hebron farmers are driving their stock a mile or more for water. It is great potato weather, J. M. Jordan of Upton raised 50 bushels on 1.8 acre. Corn factories also report large crops, 319,000 ears were put up at Buckfield, 250,000 at Denmark. New potatoes are bringing 25c a bushel in many localities.

A Tragedy

About the 25th of July, a young man came to a printing office to inquire where he could sell a second hand moving machine. It seems he had an extra mover in equipment on the farm. Now the art of selling things is not only in letting people know you have them to sell; the publicity should be so timed as to reach the public just in advance of the demand. Motor boats are used chiefly in the summer season; they should be advertised in the spring. Moving machines are wanted in July; they should be advertised in June. Heating stoves are used in the fall and in the winter; they should be advertised in the late summer. Snowshoes are used, only in the winter season; they should be advertised in the fall. Bicycles, riding tennis rackets, etc., find their use in the summer time; they should be advertised in the spring or early summer.

Now this party, who had the moving machine to sell, above mentioned needed the money and probably forty people wanted that machine. It could have been sold a dozen times over for a twenty-five cent ad in the Intelligence Column. It is tragic to reflect that that machine will be in the way, on that farm, until the next haying season. We talk a lot about the Intelligence Column, not chiefly for the revenue which comes from these small ads, but more because they make an interesting part of our paper. A further consideration lies in the great utility which these ads are to our readers and the strength thereby added to our publication enterprise.

About every attic, barn, store shed and cellar is a relic for things never to be wanted by their present owner, which could easily be turned into cash. This result is only a part of the game for valuable storage room is released and fire risk is lessened. Whatever you have we can help you sell it. Advertise in the Intelligence Column Try and see for yourself.

"The only pearl I ever found was my wife," remarked a local citizen the other day. Can you name him?

The Ramblers were pleasantly entertained, Friday evening at the home of P. F. Stone. A bountiful supper was served at seven o'clock, followed by a social evening with music.

Mr. and Mrs. John H. Fletcher and son, Lloyd and Mrs. Fletcher's sister, Mrs. George Delaney and daughter, Mrs. George Delaney, left Thursday morning for a three week's motor trip to Canada and New Brunswick, visiting there, Mrs. Fletcher's and Mrs. Delaney's old home at Chatham.

Doris Brooks has gone to Boston, where she has entered the Boston University of Music.

Marion Sanborn is attending the Burdett Business College.

Edith Bileout has gone to Augusta where she will resume her duties as teacher of English in the Cony High School.

Elizabeth B. and Agnes L. Beal have taken rooms at Portland where they expect to spend the winter. They moved their goods from the Walker house, Friday and visited with Mr. and Mrs. John Woodman until Saturday when they went to Portland. They plan to return to Norway when several rooms are available.

Mr. and Mrs. J. P. Swain motored to Lovell on Tuesday, the 15th. With them were Mr. and Mrs. C. M. Hazen, Beverly, Mass., and Mrs. Howard Davis. They called on S. H. Ring and wife of Camp Mayflower, Kezar Lake.

L. E. Bennett of Berwick and a party of friends, Newell Tibbets and wife, Emma and Ethel Tibbets also of Berwick, who have been spending a few days at one of the MacLean cottages at the lake, returned Sunday. Mr. Bennett is a brother of A. T. Bennett of Deering street and this is Mr. Bennett's first visit here in twenty-four years and says he notices many changes here during that time.

At a meeting of the Woodstock Athletic Club Saturday evening in the V. I. S. Hall, Robert Johnson was elected secretary and treasurer to take the place of Roger Lappin who resigned when he went to Orono to attend college.

SOUTH WATERFORD

Bear Mt. Grange

Bear Mountain Grange No. 62 met in regular session Saturday evening, Sept. 13, with Worthy Master W. K. Hamlin in the chair.

The entertainment consisted of a recitation by Sister Laura Shaw, piano solo by Sister Flora Abbott, and reading by Sister Ida Riggs. The discussion of the topic "Farm Accounts" brought out many interesting ideas. In the absence of Bro. G. L. Hilton, who was to have opened the question, past master W. W. Abbott was called upon.

The next regular meeting comes on Saturday evening, September 27th. Sub-committee for discussion to be opened by Bro. Clinton Kilgore; Labor-Saving Devices on the Farm, in the House, and Out-of-Doors. Entertainment will consist of a roll call of all members to be responded to in some manner for at least one minute.

After the meeting, a lunch in the dining room was much enjoyed.

Every Dot represents Ten Satisfied Delco-Light Users

More Than 75,000 Satisfied Users

DELCO-LIGHT was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They were the same men whose engineering talent had made DELCO Starting, Lighting and Ignition Equipment for automobiles the standard of the world—

They knew electricity—and they knew the needs and limitations of farm life—

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It must be easily operated and require little attention—

It must be very economical in operation—

It must be built to stand hard usage and it must last indefinitely—

It required five years to develop a plant that would measure up to these specifications.

There were five years of hard engineering effort back of DELCO-LIGHT before the first plant was put on the market three and a half years ago.

Today DELCO-LIGHT is furnishing the convenience and comforts of electricity to more than Seventy-five Thousand farm homes.

It is providing an abundance of clean, bright, economical electric light for these homes. It is furnishing power to pump water, operate washing machine, churn, separator, vacuum cleaner, electric iron, milking machine, and other small machinery.

And everywhere it is demonstrating its wonderful efficiency—and actually paying for itself in time and labor saved.

HARRISON

Mrs. Hattie E. Harmon. The people of Harrison were saddened on Wednesday by the news of the death of their former townswoman, Mrs. Hattie E. Harmon, who passed away at Gray's Hospital in Waterville, age 68 years, when she had been very ill for several weeks with intestinal troubles.

She was formerly Hattie Wentworth of Naples and married Charles W. Harmon and lived for many years in this village. Mr. Harmon passed away over 20 years ago.

About ten years ago Mrs. Harmon moved to Waterville and had been an active and capable nurse there for many years. She had recently purchased a nice home there where she resided with her daughter.

Mrs. Harmon was loved and respected by all who knew her and leaves many besides her family both at Waterville and Harrison, to mourn their loss. She was especially fond of her home and her children and utterly devoted to them always.

Besides several grandchildren, she leaves one son and three daughters, Benjamin W. of Harrison, Mrs. Harry Peterson of Corvallis, N. Y., Mrs. George Kent of Woodland, and Mrs. George Verrill of Waterville, also one sister, Mrs. George Crockett of Westbrook and two brothers, Stillman and Charles Wentworth, both of Naples.

Funeral services were held at her late home in Waterville attended by Rev. Mr. Knickerbocker.

The body was brought to Harrison and a brief service was held at the Baptist church Saturday afternoon at 1:30, Rev. J. B. Coy officiating.

Mrs. Harmon was a charter member of Woodland Rebekah Lodge which attended the funeral. She was also a prominent member of the Pythian Sisters at Waterville.

Interment was in the family lot at Harrison Cemetery and the flowers were many and very beautiful. The bearers were C. D. Farbox, F. P. Freeman, M. H. Pitts and J. T. Kneeland.

Josephine P. Ricker is visiting friends in Brunswick for a short time. Mrs. H. E. Harton of Portland is stopping with her parents, Mr. and Mrs. Alvin Ricker on Elm street.

Mr. and Mrs. W. B. Spiller have moved into their cozy rent on Main street. Allen Sylvester is home from Brunswick for a few days.

Mrs. Ida Webb is working at F. P. Freeman's on Hillside Avenue. Mr. and Mrs. Charles Crosby of Bethel were recent guests of Mr. and Mrs. C. D. Tarbox on Main street.

Frances Thompson has returned to her school at Portland. Her mother, Mrs. Charles Doughty, will be in town a week longer.

Mrs. W. C. Guilford, who has successfully conducted Crystal Lake Inn this summer, started Friday for New Brunswick where she will visit her mother and sisters. Later she will join Mr. Guilford in California.

Mrs. Wilbur has moved to Mrs. Maria Ricker's rooms on Main street. Mrs. C. D. Tarbox with Celia and Edward spent the week end in Waterville.

Abbott-Norton Co. of Bridgton have opened their shoe store in the Bailey Block and are doing a rushing business. Mr. Norton has been in charge for a few days, but Mrs. Ernest Ward and Marion Burnham are the clerks.

A Harvest Ball was held at grange hall Monday evening, the B. A. A. orchestra furnished music.

Arthur Smith is moving his family from the Cole rent on School street to the stable which he has bought. Mr. Jewett is building on an addition to the stable and plans to live there.

Ruth Nason is working for Mrs. Clinton Stuart who has been ill. Frank Ricker has been spending several days in Portland.

Charles McCarthy of Newton, Mass., has been the guest of his sister, Mrs. Alexis Faye, at Elms Inn and Sara Faye of Boston has been visiting her brother, Mr. Faye.

Stanley Edes who has been office boy at Elms Inn has returned to his home at Edes Falls.

Mrs. Lillian Billings of South Waterville is stopping with her sister, Mrs. Nell Sawyer on School street for the winter. Ruth Chabourne, second North Bridgton, of the primary school, is boarding with Mrs. Sawyer.

Miss Jones of South Portland and Miss Swett of Waterville, teachers of the intermediate and grammar schools are boarding at Elms Inn.

Marguerite and Arnold Merrill, who have worked at Rangeley all summer, are at their home on Main street.

Girls' Club Exhibition. Some very fine samples of canned goods were shown at the demonstration of the Girls' Canning Club on Thursday afternoon at I. O. O. F. Hall. Delicious fruit, berries and vegetables were well represented and highly praised by the judges and visitors.

Ruth Caney and Mr. Mitchell of Portland were the judges and awarded the prizes which consisted of \$4, \$3, and \$2.50 in money, to Christine Dotts, last prize, Mona Greene, second North Bridgton. The young people were urged to continue the work and exhibit at the County Exhibition in Portland.

Leon Burnham, Mrs. Frank Ricker, Franklin and Frances Burnham and Mrs. Eunice Austin went Sunday to Portland and called on Olive Austin, who is attending Gray's Business College.

Edward Noyes was in South Paris, Monday, on business.

Mrs. Gladys Gilman and family of Portland, who have been visiting Mrs. Ada Pitts and family, have returned to their home in the city.

Mrs. Annie Bachelier of Boxford, Mass. is visiting her uncle, J. Denning. Mr. and Mrs. Will Bumpus and her brother, Llewellyn Wardwell, attended the Lewiston fair, Thursday.

Mr. and Mrs. Mark Mayberry and family from Massachusetts are visiting at Herbert Mayberry's.

Oxford Grange will hold its annual fair at Welchville, Sept. 27. Dinner will be served to all.

Mr. and Mrs. Clarence March and daughter Margaret were Sunday guests at their grandparents', Mr. and Mrs. J. K. Denning's.

William Hall has returned to his studies at Bowdoin College. Robert Handcomb will enter as a freshman and room with him. Mr. Boyd of Oxford moved the room furnishings for William Hall, Tuesday.

Mrs. Lena Cox of Raymond spent the week end with friends and finished the sale of her farm to Orin Martin. J. K. and C. K. Denning have bought a Deering grain binder and are just cutting their nine acres of oats.

Will Graffman is cementing his house cellar. Richard Tyner has bought a horse of John King.

The Advents are building a chimney in their church. Will Mayberry has 50 fine Rhode Island Red pullets.

Will Mayberry and Dwinal Tyner are working during the harvesting for J. K. and C. K. Denning.

SWEDEN

Farmers are very anxious to have some fair weather so they can do their harvesting. Those who planted sweet corn in this vicinity for Brighton corn shop, are very well satisfied with what they received for their corn.

Our school has been in session two weeks, taught by Dorothy Coleman of West Fryeburg.

W. H. Gordon bought a yoke of oxen, recently. Callie G. Briggs, who has been sick the past two weeks, is better.

The crack of the duck hunters' guns at Lower Kezar Pond can be heard quite often. Callie G. Briggs has harvested several bushels of nice popcorn that he raised this season.

The Third Red Cross Roll Call opens November 2 and continues through November 11, Armistice Day.

An Appeal to Reason

The Committee appeals to the Legislature to pass the law, and has sent the following letter to the Senate and House. If you believe in the people have the chance to vote as they see fit.

Augusta, Maine, September 26, 1919.

I have been asked to give your opinion on the proposed amendment to the Constitution at the coming session. Shall we pass it?

The Committee cannot repress its amazement at the suggestion that the people should be asked to vote on a question of such importance. It is a question of the right of suffrage.

It is the exercise of their prerogative as citizens to vote on the question of the right of suffrage. It is the right of the people to be heard.

OBJECTIONAL THINGS AT COUNTY FAIR

Allow me to express myself in regard to the County Fair.

Our officers have it in their power to shut out such things as were on the grounds this year. These side shows for "men only" are indecent and demoralizing to say the least. Our fair is the event of the season where the young family wish to attend.

Do we want our young men and boys to go to such places as our fair was this year?

Nearly every tent down the midway was for men only and the largest one on the grounds was the Walla Walla Harem. Does this speak well for Oxford County Fair? Unless this state of affairs is suppressed soon, no self-respecting person will care to attend.

A Mother of a Son.

MOOSEHEAD LAKE NOTES

Sugar Island, Sept. 22, 1919.

Got here on the 18th. Left Norway the 16th under cloudy skies but firm in the belief that Larry Carroll had fixed the weather all right for his great agricultural show at Lewiston. He wouldn't forget that little detail. It happened I made no mistake. The rain did not come until midnight and I was safely housed at the Elmwood in Waterville.

I made nine calls during the day and sold Economy Handles at each stop. Wasn't turned down once. Think of it! Great record! Sales run from one to six dozen and total receipts were \$5.70.

At the Elmwood I occupied room 422 30 stories up with fire escape only a few feet from the head of the head. Walter had a room on the second floor. From my windows you could look into the railroad yard and see engines and moving trains. It was interesting especially in the night to know there was so much railroad activity in the world.

The city clock failed to strike but engine bells and shunting cars were in evidence all night which added greatly to my entertainment.

I ran over the expense account of "living off the country" for the first day and it was \$10.95 with cash receipts of \$5.70: gasoline and fixed charges are not considered, the cost is reasonable when you consider there are three in the party and one a woman.

Ten good tin cans were got out of the kitchen dump at the hotel. I gave one to a can with a handle and gave it to the boss cook, who was dressed all in white including a cap. He was pleased and requested that I should sell a dozen to the manager as he wanted them to use in the kitchen.

Mr. Fuller is a job printer in Waterville and has a monotype and a Linotype and was raised in Buckfield. His father was at work in the office. They print a number of magazines and papers including "Zions Herald" and "The Farmer".

A tinsmith at Fairfield fixed the cans I got at the Elmwood for ten cents. Hence at a cost of a penny each and with handle attached will readily sell for 15 or 20 cents each. Such dippers at the store cost from a quarter to 50 cents. Why not economical people throw away tin cans and buy tin ware? Because it has been the custom but the Economy Handle changes this and those so inclined can attach handles and make serviceable cast-iron tin cans. It is a great saver of tin ware and a good solid thing. In two days I showed them to 22 prospective customers and took orders from nineteen.

L. A. Davis of Benton to whom I sold handles tells me that Tom Smiley of Portland and Norway at home home farm in that town and is steadily gaining. He has been there since early spring. "It is a case of over-work and shattered nerves, the same as I once had," said Mr. Davis. "He is coming out all right." Am pleased to hear this as will be his many friends among our readers.

Geo. Huff of Dexter owns and operates three papers. Poor fellow he is to be pitied. He can't go fishing and sell "can handles" and indulge in writing his own personal experiences that no one cares to read. He has got to attend to business all the time as he has three foremen to pay each week and listen to the woes of three communities, Pittsford, Dexter and Guilford. All good towns containing the usual number of enterprising citizens, who can tell how a successful newspaper should be run. Poor fellow I pity him. I fear his ambition has outstripped his judgment but no doubt in the next world will be way up. He certainly ought to be.

I peeked round in his home office a bit and found he had a wonderful collection of printing material together with C. L. Nutter as foreman, a girl line-operator, a good sized boy and an outside elevator. The Dexter Gazette office is in the second or third story of a wooden building all on one floor a few rods out on Cat Alley from Main street. Winding stairs lead to it unless you choose to take the elevator. A century's growth of printing appliances are here exposed to view. I added to it a tin-can and handle. Mr. Huff was absent.

Dexter is known to me only as the field of operation of Stain and Cromwell, Bank Treasurer Barrow, Dr. Ritzgerald and Holman, Dr. Ray and Scott, lathes, and machinists don't count. The Dana Crockett Co., J. L. Packard manager have the Economy Handle for sale. What more is needed to make the community prosperous and the children happy.

At Dover we stopped at the Blethen House as usual. Here they are long on everything except the matches. The old appliances described by us in former writings, has gone to the discard and in its place is an iron box worked with a break from whence will pop a single match lucifer and down. You pull it out and it lights and there you are! No one will fill pockets with match stubs! In economy it even out does my Economy Can Handles.

Bro Evans neglected to be in his office in the Observer building at 8 o'clock so I didn't see him. May be he saw me before I got there and kept in the background. I left a can wearing a handle and with the name of the two who have them for sale in the vicinity. Do you suppose he will catch on and give me a five dollar local for a five cent article? Possibly.

I fell in with a stranger, an elderly man on my way to Foxcroft and was told that South street was no place for the postoffice. I was pointed out the place where he said the new postoffice should have been. He also said six hundred dollars was given the owner of the saw mill when the new bridge was built and his business was not damaged at all; he had been into the "Lake Country" and that there was a new road around a big hill, Manson village. He had never been over the new road but I'd find it he added.

Dover to Greenville is the prettiest ride in New England in my way of thinking. The pointed trees and green fields and broad expanse of woodland view, with ponds and rivers make it unsurpassed. The farms look prosperous and most of the farm buildings well kept. I saw one farmer digging potatoes with four horses. The potatoes were coming to the surface in windrows.

The car was left at the exchange garage at Greenville and Henry Bartley agreed to try my estate a little something for it if I didn't return for four months. A. A. Crafts Co. at the Junction was supplied with handles and I parted with \$2.91 for three tickets to Sugar Island. Capt. Louie Mountain brought the bow of the "Louisa" to the Wharf at Greenleaf's Camps and for the second time this season I stepped ashore.

The changes on the Island are many from what they were three months ago.

The birds have gone and the leaves are falling. The gulls are here but are silent only the bluejays have the courage to speak and that not often. Fish where are they? They too have gone. At least only one had been caught for some time past. It was taken in deep water trolling off Gull Island by Dr. D. R. Crounce of Passaic, N. J. and eaten before I got here.

Elgin reports a satisfactory business for the past season and some hunting parties to arrive in the near future. There are ducks and partridges in this vicinity. The farmers are more in evidence. There are plenty of deer signs. Their tracks are seen in the yard and on the shores.

The line storm is on while writing this or I'd not waste time in such foolishness. There are miles of miles of lake shore to be inspected for Indian relics. Between showers and high winds I have brought in many curious things, that is the word, mostly wrought in rock. Walter discovered the most curious and probably valuable, an Indian corn crusher or mortar or something after that order. I have Mollie Molasses foot and sole in rock backed up with a small stone in the center. The doctor said John battled ax and several other implements of an unknown age. The water is four feet lower than in June exposing a good deal of shore surface.

Twenty-five trout taken from Mountain Pond last Friday. I took no part in the slaughter. The doctor said John Bridge did it. I ate some of the fish however and they were good. I know just how it was done but the mileage was too much for me. Think of it! Four miles to Bear Creek, two miles through Prong Pond and two and three-fourths on up the mountain to the pond. Make it in a day and you come home tired and foot sore. I've been that foolish in the past but not now not at this season of the year at any rate.

I placed guilty in the capture of two lakers whose combined dressed weight lacked an ounce of four pounds. That is fish enough to keep the camp going some time and too the doctor has succeeded in getting a square tail and a laker dressed off two pounds and one ounce. Hence six pounds of fish will have to carry us through the line storm rainy spell which is now on and the end is not in sight.

You have a lot of articles, useful in themselves which you personally have use for no longer. Turn them into cash by putting an ad in the Intelligence column. It will do the work, try it.

CHILD ALMOST DEAD
GRANDMOTHER SAVES LIFE

Roxbury, Mass. A grandmother in Roxbury writes: "put great faith in your medicine, and one of my children was dying. The doctor said she could not live until morning, and I ran out to the drug store and got a bottle of Dr. True's Elixir. Was so excited I gave her the half of the bottle at once and at night I saw her better. I thought I either kill or cure for the doctor says she is dying anyway, but she did not die. She went to sleep. She passed two worms, red in color, six inches long. The doctor came to see if she was dead, but he ran out pretty quick, as she was sitting in her chair eating a bowl of oatmeal and milk. That was twenty-four years ago, and now she has a baby girl of her own, seven months old, who is also using Dr. True's Elixir. (Name on Boxes)

Constipation, headaches, tired feeling, weakness, spots before the eyes, bad breath, sleeplessness, irritability, dizziness, and many other signs of sickness, can be relieved, if you take the prescription known as Dr. True's Elixir. The Family Laxative and Worm Expeller. It has done much for sick people, men, women and children, ever since 1858—over 68 years' reputation.

Powerful Pile Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in Few Days

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the foreman.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this word may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and

nothing seemed to do me any good. A

friend advised me to take Lydia E.

Pinkham's Vegetable Compound. I

did so and got relief right away. I

can certainly recommend this val-

uable medicine to other women who

suffer, for it has done such good

work for me and I know it will help

—Mrs. LIZZIE COURTNEY, 108 8th Ave.,

West, Oskaloosa, Iowa.

Why will women drag along from day

to day, year in and year out, suffering

such misery as did Mrs. Courtney, when

such letters as this are continually being

published? Every woman who suffers

from displacements, irregularities, in-

flammation, ulceration, backache, ner-

vousness, or who is passing through the

Change of Life should give this famous

root and herb remedy, Lydia E. Pink-

ham's Vegetable Compound a trial. For

special advice write Lydia E. Pinkham

Medicine Co., Lynn, Mass. The result

of its long experience is at your service.

FLITTING

It is learned that unnaturalized emi-

grants are leaving our shores at the rate

of 1,000 a day, and that each of them

are taking at least \$1,000 with him.

They are on their way back to Europe,

with the profits of the war-time prosper-

ity.

This fact is worrying some of the

economists, because they feel that the

country is becoming denuded of currency.

They claim that it will soon be impover-

ished.

But the economists were telling us a

short time ago that the inflation of liv-

ing costs was largely due to a surplus of

currency, to a disproportion of com-

modity to money.

So the problem is solving itself.

NATIVE OF PARIS

Mrs. Flora Barry, noted singer, is 83 Years Old

Mrs. Flora E. Barry, opera singer and teacher, celebrated her 83d birthday on Thursday afternoon, Sept. 18, at her residence 124 Chandler Street, Boston. From 4 to 6 a program was given, including a group of songs by Mrs. Barry, accompanied by George M. Taylor, pianist, with whom she had sung for 40 years when at the zenith of her success. Leon Harlow, nephew of Mrs. Barry, sang a duet with his distinguished aunt.

Mrs. Barry, who does not use glasses when reading or sewing, is enjoying good health and able to do a goodly share of her housework. "I am obliged to work 19 hours out of the 24 some days owing to the scarcity of suitable help," she said. William the Conqueror. She said she has been a member of Trinity Church for 50 years.
